The 1-54 Fair Announces Paris Edition

The **1-54 Contemporary African Art Fair** has announced “1-54 Paris at Christie’s,” a special edition of the fair that will take place in the French capital next year. Nineteen international galleries will present work by contemporary artists from Africa and its diaspora at Christie’s space at Avenue Matignon and online from January 20–23. The event will also feature an entirely virtual edition of 1-54 Forum, the fair’s multidisciplinary program of talks, screenings, performances, workshops, and readings. The program, curated by LE 18, an art space in Marrakech, will be open in tandem with the in-person fair and run through February.
